Pneumonia Vaccination (Short Stay)	75%	72%	37	36 ↑+1
Delirium (Short Stay)	2.00%	1.87%	14	18 ↓-4
Pain (Short Stay)	20.39%	17.78%	13	11 ↑+2
Pressure Ulcers (Short Stay)	16.95%	18.44%	39	42 ↓-3

The data represents care delivered from April 1, 2007 to June 30, 2007 for the chronic quality measures and January 1, 2007 to June 30, 2007 for the post acute quality measures.

The influenza vaccination measures cover the 2006-2007 flu season (October 1, 2006 - March 31, 2007). The pneumococcal vaccination measures cover care delivered from October 1, 2006 to March 31, 2007.

The red and green arrows represent if Tennessee has changed in rank and by how many places from the previous publicly reported quarter. NC means no change.

If you have questions about the quality measures, please contact the QSource Nursing Home team at 866.514.8595 ext. 7201.

To see how your nursing facility compares to state and national rates, please visit Nursing Home Compare at www.medicare.gov.

For the vaccination measures (1,2,15 & 16) higher scores indicate better performance.
For all other measures, lower scores indicate better performance.
