3. Take this form to **ALL** doctor visits, when you go for tests and **ALL** hospital visits.
4. **WRITE DOWN ALL CHANGES MADE TO YOUR MEDICINES** on this form. If you stop taking a certain medicine, draw a line through it and write the date it was stopped. If help is needed, ask your Doctor, Nurse, Pharmacist, or family member to help you to **keep it up-to-date**.
5. In the NOTES column, write down the name of the doctor who told you to take the medicine(s). You may also write down why you are taking the medicine (Examples: high blood pressure, high blood sugar, high cholesterol).
6. When you are discharged from the hospital, someone will talk with you about **WHICH MEDICINES TO TAKE AND WHICH MEDICINES TO STOP TAKING**. Since many changes are often made after a hospital stay, a new form should be filled out. When you return to your doctor, take your new form with you. This will keep everyone up-to-date on your medicines.
