Truth or Dare

TRUTH: “African Americans report less partnership with physicians, less participation in medical decisions and lower levels of satisfaction with the health care they receive.” Cooper and Roter, 2003

DARE: Increasing racial and ethnic diversity demands new skills from physicians. You can gain these skills by partnering with The Illinois Foundation For Quality Health Care (IFQHC). IFQHC assists with training and education in practicing Cultural Quality and adoption of the Cultural and Linguistically Appropriate Services (CLAS) Standards. This program is offered at no cost to you and provides you with up to 9 hours of AMA category 1 CME credit that you complete at your own pace.

Dare if you care: For more information and to enroll please complete and return this form

Practice Name: _____

If you are part of a larger organization, please list name: _____
