

SMALL PRACTICE NATIONAL LAN WEBINAR: THE MECHANICS OF MIPS DATA SUBMISSION OPTIONS

Upcoming Web Event

As you are either actively participating, or preparing to participate in MIPS for the 2017 transition year, you should also consider the mechanism of how you will submit your data to CMS. Here at IMPAQ, we understand that the mechanics of submitting the required data for the MIPS performance categories may be overwhelming and complex; we are here to help you through the process. This webinar will be moderated by Bruce Spurlock, M.D., President & CEO of Cynosure Health Solutions, and will feature a panel of clinicians and experts discussing the options for submitting MIPS data. The mechanics of using registries, Electronic Health Records (EHRs), claims or other processes to submit data will be described along with the pros and cons of each option for MIPS eligible clinicians in small practices.

Participants will learn:

- The options for submitting MIPS data and the pros and cons of using each option
- The mechanics of how to use each option to submit MIPS data
- Practical tips for successfully and efficiently submitting MIPS data using each available option

This event is designed for:

- MIPS eligible clinicians from small - practices -
- Practice managers and other staff from small practices tasked with submitting MIPS data
- Persons assisting small practices preparing to participate in MIPS

Registration

In order to accommodate schedules and time zones, two opportunities will be provided to participate in this webinar. Please register by clicking on the link that corresponds with the date you plan to participate.

- [Tuesday, August 1, 3:30 – 4:30 p.m. ET](#)
- [Thursday, August 3, 11:00 a.m. – 12:00 p.m. ET](#)
