

# Introducing the

# QPP Navigator

The Quality Payment Program (QPP) Navigator is a population health and performance improvement tool designed for clinicians and practices.

The software solution is simple, intuitive, flexible and easy to use. It allows practices to optimize their Merit-based Incentive Payment System (MIPS) Medicare payment adjustments.

The QPP Navigator is secure, risk free and comes with friendly around-the-clock support available any day, anytime you need assistance.

It is designed to provide a practice with everything needed to avoid the Merit-based Incentive Payment System pay cuts.

The QPP Navigator is FREE when you submit ACI, IA and cost measures.

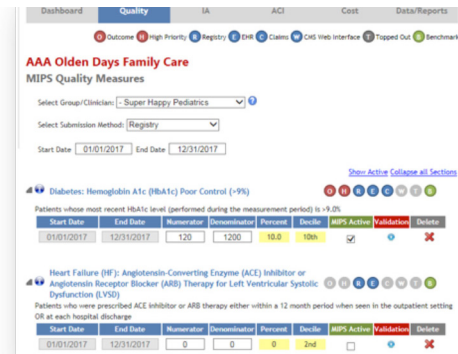

For more information, contact us by email at [techassist@qsource.org](mailto:techassist@qsource.org) or call 844-205-5540.

**Understand | Estimate | Analyze | Optimize**

## 2017 MIPS Reporting — It's not too late. It's not too hard.
